Psychodrama in the Courtroom to Win the Un-Winnable Cases

The *Military Law Institute & AMVETS Legal Clinic* is featuring Joseph Low as their first Distinguished Speaker this academic year, who will discuss psychodrama, a cutting edge trial technique that combines psychology and dramatic re-enactment to discover, and tell, a client's story. Using this technique, Mr. Low achieved an acquittal of his client in the highly publicized "Pendleton 8" trial. His client, a combat Marine with severe Post Traumatic Stress Disorder, was accused of murdering a civilian in a Fallujah, Iraq.

Mr. Low is a well known trial lawyer who specializes in high profile criminal cases. He is also a graduate of, and trial instructor at, the world famous *Gerry Spence Trial Lawyer's College*. Mr. Low travels nation-wide, and abroad, to teach the latest litigation techniques and strategies. Don't miss this incredible opportunity to learn from a trial master.

Mr. Low is, without a doubt, one of the great trial lawyers in America. . . his creative approach to trials are gifts that rarely congregate in the same lawyer.
